

## Dixie State University ▪ Bruce Hurst Field

**Bruce Hurst Field** in St. George, Utah, is home to DSU's *Trailblazers* baseball team. In the past, it has also welcomed several minor league teams. The field was reconstructed and expanded in 1995 to give it a more classic look, and **SPORTS VENUE PADDING (SVP)** was contracted in 2021 to replace all exterior wall, fence, post, and rail padding.

*"We were searching for an outfield wall product and struggled to find the right solution. SVP came in with their wall padding system under budget and on time. They included graphic design and windscreen. The project was a complete turnkey solution. The SVP team provided an exceptional project experience. We had a fixed budget which could have limited our ability to maximize our spending; however, SVP was able to provide a solution for all our needs within our budget. We had a very tight schedule. Products that were not going to ship and be installed by opening day were hand-delivered to ensure we were complete by opening day."*

— **John Gibb, Director of Facility Planning and Construction**

*"Working with SVP was an awesome experience. They were hands-on right from the start and did a great job with every detail of our facility. The padding that they provided and installed was a game changer at our facility."*

— **Chris Pfatenhauer, Head Baseball Coach**

*"SVP was amazing to work with! They provided a phenomenal, high-quality finished product, on a tight schedule, at a good price. We will definitely continue to work with SVP on future projects."*

— **Dr. Jason Booth, Athletic Director**

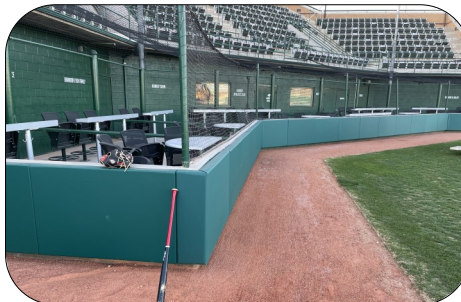

**PROJECT:** Baseball Stadium  
**Client:** Dixie State University  
**Completion Date:** Feb. 2021  
**Vendor:** Sports Venue Padding
